

Innovate and Accelerate your Business with  
AWS Cloud Solutions

# Modernizing your legacy apps and leveraging the benefits of cloud adoption

**“When digital transformation is done right, it’s like a caterpillar turning into a butterfly, but when done wrong, all you have is a really fast caterpillar.”**

– George Westerman, MIT Sloan Initiative on the Digital Economy

Digital transformation is the need of the hour and for a complete business makeover, modernizing your legacy apps and adopting cloud is a business imperative. This transformation needs a carefully devised strategy that is implemented on a phased approach. Irrespective of which level of cloud maturity you are, our AWS Cloud Computing Services will help you in achieving your business objectives and returns you expect from your cloud investment. When it comes to cloud, you need to tread carefully, and as a cloud expert, we can help you take the right approach and achieve accelerated results.

## AWS Products

|  |  |   |  |  |
|--|--|---|--|--|
| <br>Compute               | <br>Storage                 | <br>Database           | <br>Migration                       | <br>Networking & Content Delivery |
| <br>Developer Tools       | <br>Management Tools        | <br>Media Services     | <br>Security, Identity & Compliance | <br>Analytics                     |
| <br>Machine Learning      | <br>Mobile Services         | <br>AR & VR            | <br>Application integration         | <br>Customer Engagement           |
| <br>Business Productivity | <br>Desktop & App Streaming | <br>Internet of Things | <br>Game Development                |  |

# How can we help?

## Cloud Migration:

A skilled partner like KOR has a vast knowledge of different cloud services and can advise on best migration practices. We will also provide you with consistent migration support, architectural planning and application modernization.

## Support services:

We can manage or provide IT services to you remotely, such as Helpdesk, network, application, infrastructure, or security management, by taking full responsibility for those services and proactively reviewing what technologies and services are required to suit your needs.

## App Modernization:

Updating legacy systems is a major undertaking, and the transition to the cloud can be difficult. KOR Application Modernization and Migration services will help you reimagine and rearchitect your business and IT processes with a faster and effective approach to modernizing outdated platform-based enterprise applications.

## Infrastructure Management Solution:

The highest degree of Managed Services we provide is fully managed IT services. This comprises a 24/7 monitoring system, monthly executive reports, quarterly meetings, and helpdesk support, among other things. The cost of fully managed services is set at a monthly rate.

## AWS Serverless Computing:

Leverage AWS Tools such as Lambda and Amazon API Gateway and save costs by adopting the "pay-as-you-use" pricing model. You can manage data and apps, without the need to manage servers so that you can reduce your costs and focus on innovating your business.

## AWS Cloud Security:

You can ensure security of your data and apps on the cloud with various AWS services including data management, compliance, data privacy, and monitoring while detecting threats on a real-time basis.

## Benefits of AWS

|                              |   |
|------------------------------|---|
| <b>Extensive services:</b>   | More than 200+ services to choose from                                |
| <b>Security:</b>             | Complies with 98 security standards                                   |
| <b>Global Presence:</b>      | Has 84 Availability Zones across 26 geographic regions                |
| <b>Competitive Prices:</b>   | Offers cloud solutions at optimal costs with different pricing models |
| <b>Industry Leader:</b>      | Pioneer of advanced cloud services including serverless computing     |
| <b>Huge Partner Network:</b> | Large pool of 10,000+ partners and millions of customers              |

## Interested to know more? Avail our Complimentary Assessment

A detailed plan on 2-Day Assessment:

- ◆ We meet with your Executive & Operations team to discuss your organizations technology goals & strategy.
- ◆ We understand your current gaps or pain areas & expectations.
- ◆ We understand the need of various external integration models with highest level of security.
- ◆ We explore the learning path to execute your migration & develop a migration strategy.

In addition to these benefits, Korcomptenz will be able to provide services for backups, user management, on-prem Infrastructure configuration, monitoring & maintenance, as and when needed.

# Some Services by AWS

## Application Integration

-  Amazon Athena
-  Amazon EMR
-  Amazon Redshift
-  Amazon Kinesis
-  Amazon OpenSearch Service

## Analytics

-  Amazon API Gateway
-  AWS App Sync
-  Amazon EventBridge
-  Amazon Simple Notification Service (SNS)
-  Amazon Simple Queue Service (SQS)

## Cloud Financial Management

-  AWS Billing Conductor
-  AWS Cost Explorer
-  AWS Consolidated Billing
-  AWS Control Tower
-  AWS Credits

## Containers

-  Amazon Elastic Container Service (ECS)
-  Amazon Elastic Kubernetes Service (EKS)
-  AWS Fargate
-  Amazon Elastic Compute Cloud (EC2)
-  Amazon EC2 Spot Instances

## Cloud Migration

-  AWS Migration Tools & Services
-  AWS Migration Acceleration Program
-  AWS Migration Competency Partners
-  AWS Managed Services
-  AWS Marketplace

## Serverless

-  AWS Lambda
-  AWS Fargate
-  Amazon EventBridge
-  AWS Step Functions
-  Amazon API Gateway

## Security and Compliance

-  AWS Identity & Access Management (IAM)
-  Amazon Cognito
-  AWS Security Hub
-  AWS IAM Identity Center (successor to AWS SSO)
-  Amazon Detective
-  Amazon GuardDuty

## DevOps

-  AWS CodePipeline
-  AWS CodeBuild
-  AWS CodeDeploy
-  AWS CodeStar
-  Amazon Elastic Container Service
