The New Equation for BFSI Growth: Trust, Tech, and Transformation

As the financial landscape shifts under the weight of digital innovation and regulation, success belongs to those who can modernize without compromising security or compliance. The next generation of BFSI leaders are turning disruption into differentiation.

Our Purpose-Built Solutions for Modern Financial Institutions

Cybersecurity & Fraud Prevention

Rising cyber threats, sophisticated fraud schemes, and data breach risks require advanced security architectures and real-time threat intelligence.

Regulatory Compliance

Complex and evolving regulations (Basel III, SOX, GDPR, PCI-DSS) demand continuous compliance monitoring, reporting, and governance frameworks.

Customer Experience Evolution

Digital-first customers expect seamless omnichannel experiences, personalized services, and instant access across mobile, web, and branch channels.

Legacy System Modernization

Outdated core banking systems and siloed applications limit agility, increase operational costs, and hinder digital innovation initiatives.

Data-Driven Decision Making

Massive data volumes remain untapped due to lack of analytics capabilities, preventing predictive insights for risk management and customer intelligence.

Our End-to-End Digital Services for BFSI

Comprehensive technology solutions designed specifically for the unique demands of banking, financial services, and insurance organizations.

Cloud Transformation

- AWS & Azure Migration with MAP Funding
- VMware to Cloud Migration
- Hybrid & Multi-Cloud Architecture
- Cloud-Native Core Banking Solutions
- FinOps & Cost Optimization
- Disaster Recovery & Business Continuity

Legacy Modernization

- Mainframe Modernization & Migration
- COBOL to Modern Languages Conversion
- AS/400 & Legacy System Transformation
- VMware Infrastructure Migration
- Database Migration & Optimization
- Application Re-platforming & Refactoring

Data & AI

- Advanced Analytics & Business Intelligence
- Predictive Risk Modeling & Credit Scoring
- AI-Powered Fraud Detection
- GenAI for Customer Service & Operations
- Real-Time Data Processing & Insights
- Intelligent Document Processing with AI

Application Development

- Digital Banking & Mobile Apps
- Core Banking Modernization
- Insurance Policy Management Systems
- API-First Integration Architecture
- Low-Code/No-Code Solutions

Cybersecurity

- Zero Trust Security Architecture
- 24/7 Threat Detection
- AI-Driven Threat Intelligence & Response
- DDoS Protection & WAF
- Identity & Access Management (IAM)
- PCI-DSS & Regulatory Compliance
- Security Operations Center (SOC)

Intelligent Automation

- ITSM & ITOM Implementation
- Robotic Process Automation (RPA)
- Loan Processing & Underwriting Automation
- Claims Processing Automation
- KYC & AML Compliance Automation
- Document Processing with AI/ML
- Workflow Orchestration & Integration

Managed Services

- 24x7 Infrastructure Monitoring
- Application Support & Maintenance
- IT Service Management (ITSM)
- Performance Optimization
- Continuous Compliance Monitoring

Customer Relationship Management

- Unify core/cards/loans/digital into one
- Digitize onboarding/KYC
- Lift sales/RM productivity
- Enable omnichannel service
- Apply AI on churn, offer, RM copilot drafts.
- Prove ROI with dashboards for acquisition, conversion, NPS and others.
- Orchestrate campaigns across channels with audience segmentation, journey automation, and spend optimization

Our solutions deliver tangible results that impact your bottom line and competitive position.

20%

Operational Cost Reduction

Through intelligent automation
and cloud optimization

30%

Faster Time-to-Market

For new products and services
with modern platforms

99.9%

System Uptime

With managed cloud operations
and proactive monitoring

20%

Fraud Detection Improvement

Using AI-powered analytics and
real-time monitoring

99%

Compliance Efficiency

Automated reporting and
continuous monitoring

95%

Customer Satisfaction

Through seamless digital
experiences and personalization

Why BFSI Leaders Choose Korcomptenz

Our unique combination of industry expertise, strategic partnerships, and innovation-first approach sets us apart.

Deep Banking Domain Expertise

Extensive banking expertise across all banking operations, including retail banking, corporate banking, wealth management, risk, compliance, and wealth management and more.

Proven Cloud & Data Modernization Practice

Modernize core, data, and integrations with secure, compliant patterns proven across BFSI at scale.

Cloud Product Differentiator

We leverage CKVal Cloud - a unified, hyper-automated platform to migrate, modernize, manage, and maximize cloud with enterprise security and predictability.

AI-driven Automation Data AI Practice

Operationalize AI with governed MLOps, reusable models, and accelerators for fraud, risk, and engagement.

Accelerators for Dashboards & Templates

Our solution accelerator, KOR BankIQ accelerates AI-enabled data and reporting on Microsoft Fabric/Power BI, delivering customizable, scalable platforms faster and with reduced investment.

Business Value Register

A proven framework that aligning initiatives to measurable benefits, enabling transparent governance and value realization across diverse banking domains.

Mutual Value Discovery

A one-day workshop that helps identify gaps, prioritize high-impact AI banking initiatives, quantify value, and deliver an executable plan driving 15-20%+ efficiencies.

Extract Full Value from Every Digital Investment

Our team will help you navigate all available funding programs including AWS MAP, Microsoft ECIF, and other partner co-funding benefits to maximize financial advantages and accelerate your modernization journey.
