Transform Your Business with Innovation that Drives Trust

Leverage our SAP expertise to unlock the power of efficiency and intelligence

Achieving rapid value demands exceptional adaptability. Organizations must discover inventive strategies to foster agility and resilience, enabling them to foresee and outpace swift transformations to remain pertinent and thrive.

As a leading SAP partner with global presence, decades of industry knowledge, and technological excellence, our customized strategy offers rapid business transformation, positioning you on the fast lane to success.
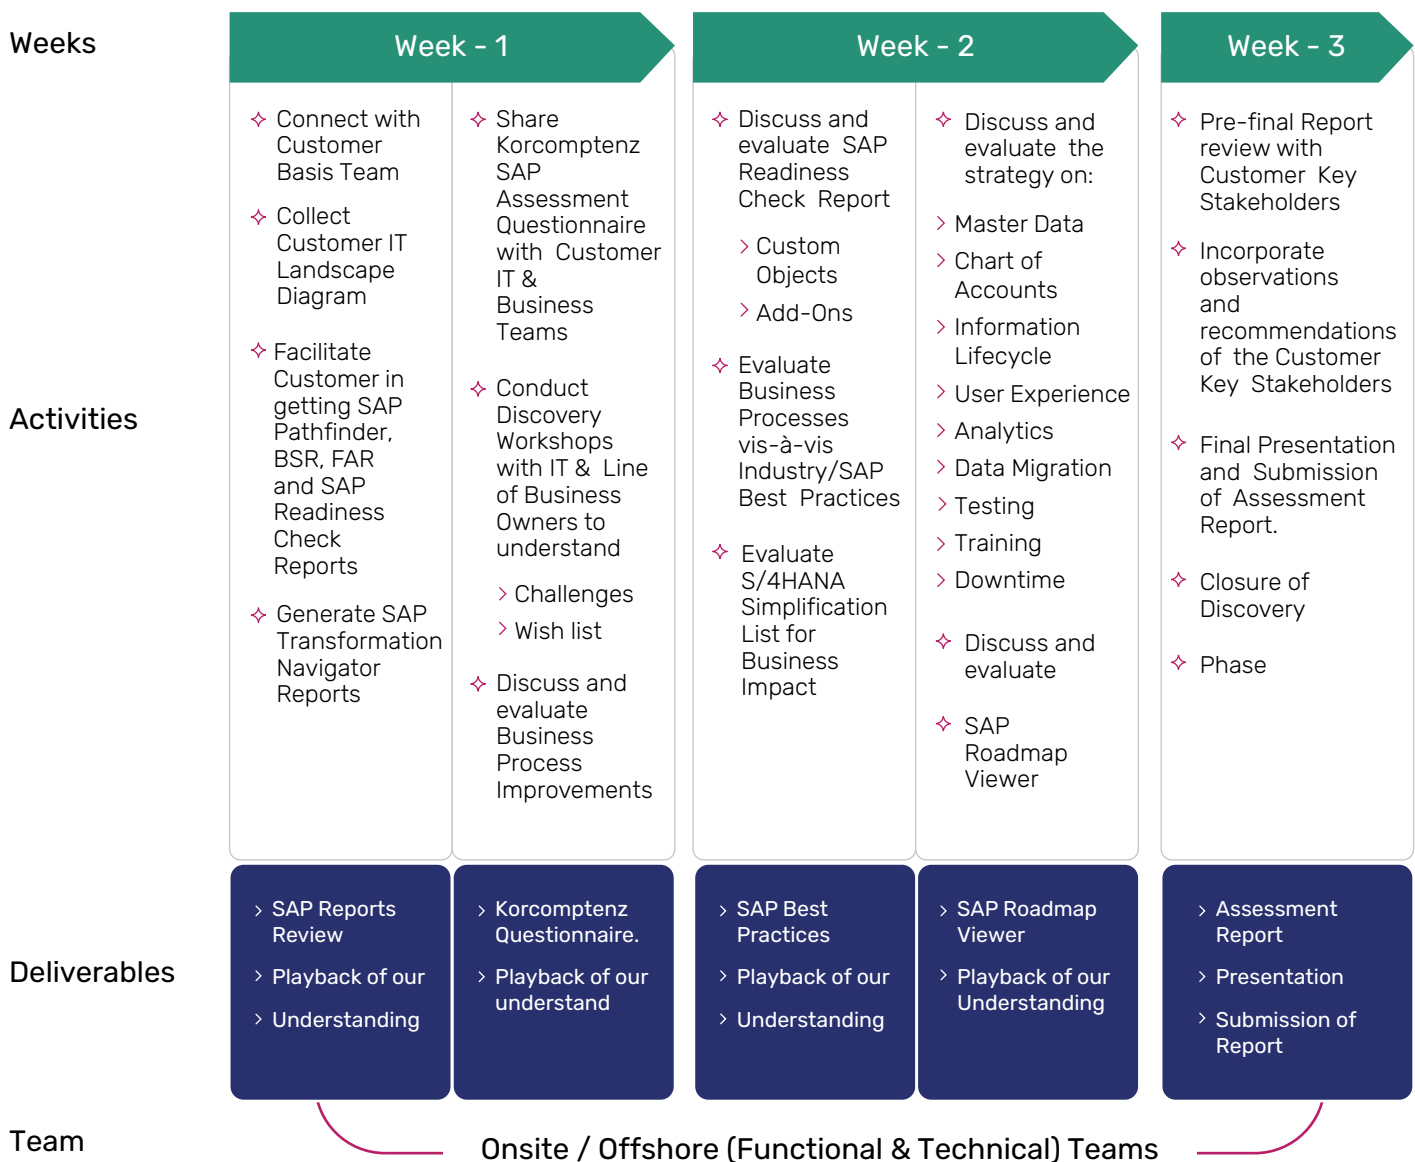

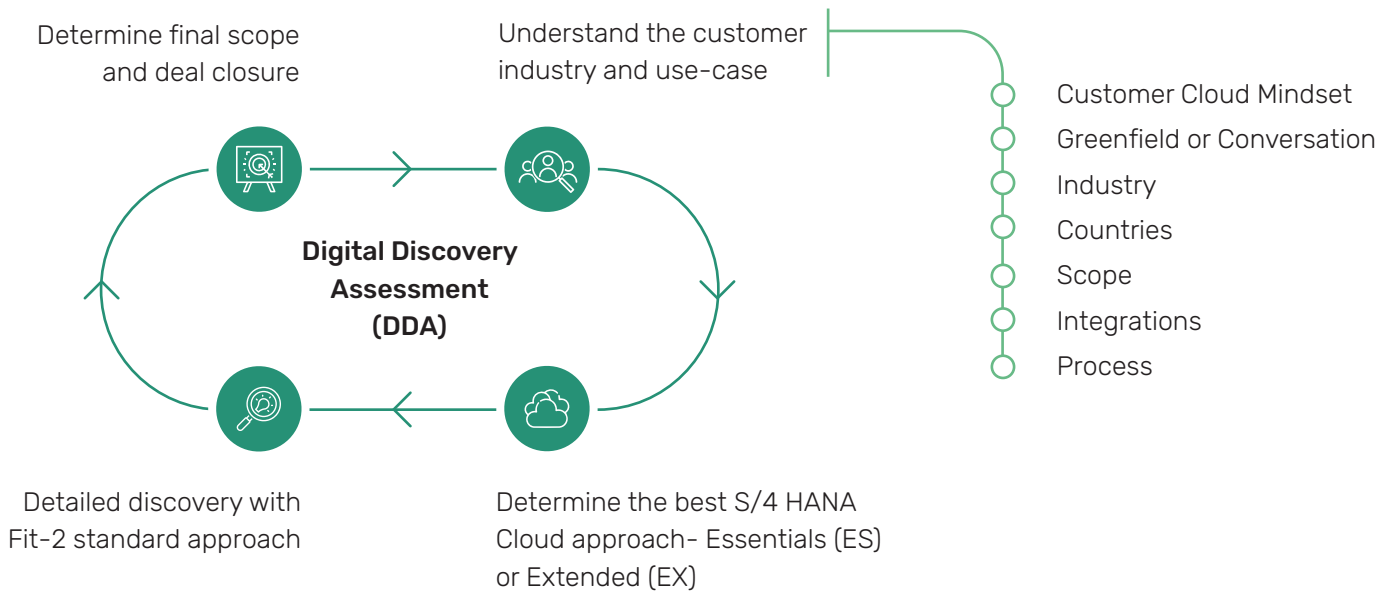

Our SAP solutions and offerings:

Discovery and Assessment

Determining the appropriate operating model for SAP S/4HANA presents one of the most challenging decisions for companies today.

Korcomptenz offers Discovery and Assessment services in a time frame as low as **just 3 weeks** to thoroughly assess the functional scope, particularly in comparing public and private cloud editions to create a business case for S4/HANA adoption.

Migration to S4/HANA

Contemporary ERP systems are often rigid and resistant to business evolution, restricting innovation with outdated user interfaces and limited business intelligence. In contrast, SAP S/4HANA represents the future of business suites. Powered by the cutting-edge SAP HANA in-memory platform, SAP S/4HANA embraces modern design principles, featuring the intuitive SAP Fiori user experience (UX) and a fresh approach to role-based user interaction.

A typical S4/HANA implementation can **save up to 40% of your operational costs and increase efficiency by 35-40%**. With an **implementation time ranging from 3-6 months,** you get a fast-track access to a best-in-class ERP equipped with cutting-edge technologies, including AI/ ML and process automation for superior performance and simplified user experience.

Our best practices:

Plan and prepare meticulously	Assess the current environment	Define the target landscape	Develop a data migration strategy
Establish change management procedures	Re-evaluate customizations	Assign a dedicated project team	Monitor and adjust continuously

Greenfield S4/HANA Implementation

Are you experiencing performance issues with your current ERP, inefficiencies in your business processes, and over-crowded data storage? Embrace a fresh start with the SAP greenfield approach and address all your challenges with the robust SAP S/4HANA platform. Achieve rapid SAP S/4HANA Transformation by reimagining current processes while maintaining compliance with SAP Activate and SAP Best Practices, **all at a reduced cost and timeline of up to 33%.**

The S4/HANA Greenfield approach:

Your Current System

SAP/non-SAP ERP system

Challenges within Your Current ERP System

- Outdated business process, functions, model
- Lots of inconsistent data
- Highly complex customized landscape

Benefits of a SAP S/4HANA New Implementation

- Fresh start to establish new organizational structure
- Create new or harmonize processes across entities
- Initial data load - data migration
- Phased move, no big bang

You Need to consider

- Implementation parallel to daily workload: IT-resources to support two ERP system during transition period Loss of data history
- Loss of Data History

S4/HANA Support Services

Get comprehensive support to unlock the full potential of S4/HANA. We offer post-implementation and migration support, along with patch upgrades, monitoring, and landscape optimization. Our dedicated team follows standardized procedures in post-migration activities, significantly reducing time and risk compared to traditional migration methods.

What you can expect from us:

24/7 Technical Support

Performance Optimization

Custom Development and Integration

Upgrade and Migration Services

Training and Knowledge Transfer

ECC Support Services

Embark on your SAP ECC journey with uninterrupted 24/7 support and tailored solutions with us. We understand the critical role of ERP and database solutions in effective organizational management. Our specialized services encompass comprehensive support, including SAP ECC support, enhancing ERP solutions through the SAP ECC platform. Our skilled consultants optimize core ECC modules, guaranteeing better business outcomes and maximizing returns on SAP investments for enhanced operational efficiency.

Why do you need SAP ECC support:

- Engage with our support experts during business critical scenarios
- Maximize your SAP ECC capabilities to accelerate your ERP efficiencies
- Gain real-time business insights by integrating data from multiple disparate sources
- Accelerate innovation and unlock the business potential of your current investments through access to tools, reports, and services.

What you can expect from us:

- 24x7 dedicated support
- Solutions tailored to your unique business needs
- Optimized operating costs
- Platinum attention with dedicated SAP delivery manager
- Expert guidance on SAP ECC best practices

Why Korcomptenz:

Proven digital transformation capabilities across Microsoft, Salesforce, and other technologies	Leading systems integration skills to deliver risk-free projects and release strategy to realize value faster	Deep knowledge of analytics, artificial intelligence, automation, and other next generation strategies	Center of Excellence support model empowers users and uncover opportunities for more innovation	Time-tested implementation and change management to drive quicker user adoption	Unmatched senior leadership attention for better strategic alignment
Proven Success	System Integrators	Transformation Strategy	CoE Model	Time-Tested Approach	Leadership Commitment

Our People and Partnerships	Your Proven Partner for Success

Platinum Customer

Korcomptenz
