

# KOR MS Fabric AI and Reporting Cloud for Manufacturing

Unlock Real-Time Insights, AI-Driven Analytics, and Seamless Reporting for D365

[Book a Demo Today and See AI in Action](#) →

In today's fast-paced manufacturing industry, data-driven decision-making is key to staying ahead of the competition. However, manufacturers often struggle with disconnected data, limited reporting capabilities, and the inability to leverage AI-driven insights effectively.

KOR MS Fabric AI and Reporting Cloud is a ready-to-deploy solution designed to transform the way manufacturers access, analyze, and act on their data. Powered by Microsoft Fabric and AI, our platform delivers real-time visibility, predictive insights, and seamless integration with Microsoft Dynamics 365 (D365) and other enterprise systems.

Whether you need operational reporting, advanced analytics, or AI-powered automation, our scalable and future-ready solution enables manufacturers to streamline decision-making, improve efficiency, and drive business growth.

## Why Manufacturers Need a Unified Analytics Platform

As a current or prospective Microsoft Dynamics 365 customer, you may struggle with obtaining real-time operational and analytical reports. Common challenges include:

Siloed  
Data Across  
Departments

Limited  
Reporting  
Capabilities in  
D365

Lack of  
Predictive and  
Prescriptive  
Analytics

Integration  
Challenges with  
Third-Party  
Systems

Scaling for  
Growth and  
Complexity

## The Solution: KOR MS Fabric AI and Reporting Cloud

Korcomptenz's AI-powered Microsoft Fabric Analytics Cloud for Dynamics 365 solution helps overcome these challenges by providing:

### Unified Reporting

Seamless visibility across D365 applications.

### AI-Driven Insights

Advanced predictive and prescriptive analytics to optimize operations.

### Pre-Built Dashboards

100+ interactive reports for instant insights.

### Effortless Integrations

Connects natively with D365 Dataverse and with external systems.

### Scalable & Future-Proof

A flexible cloud-based solution designed to support your business as it grows.

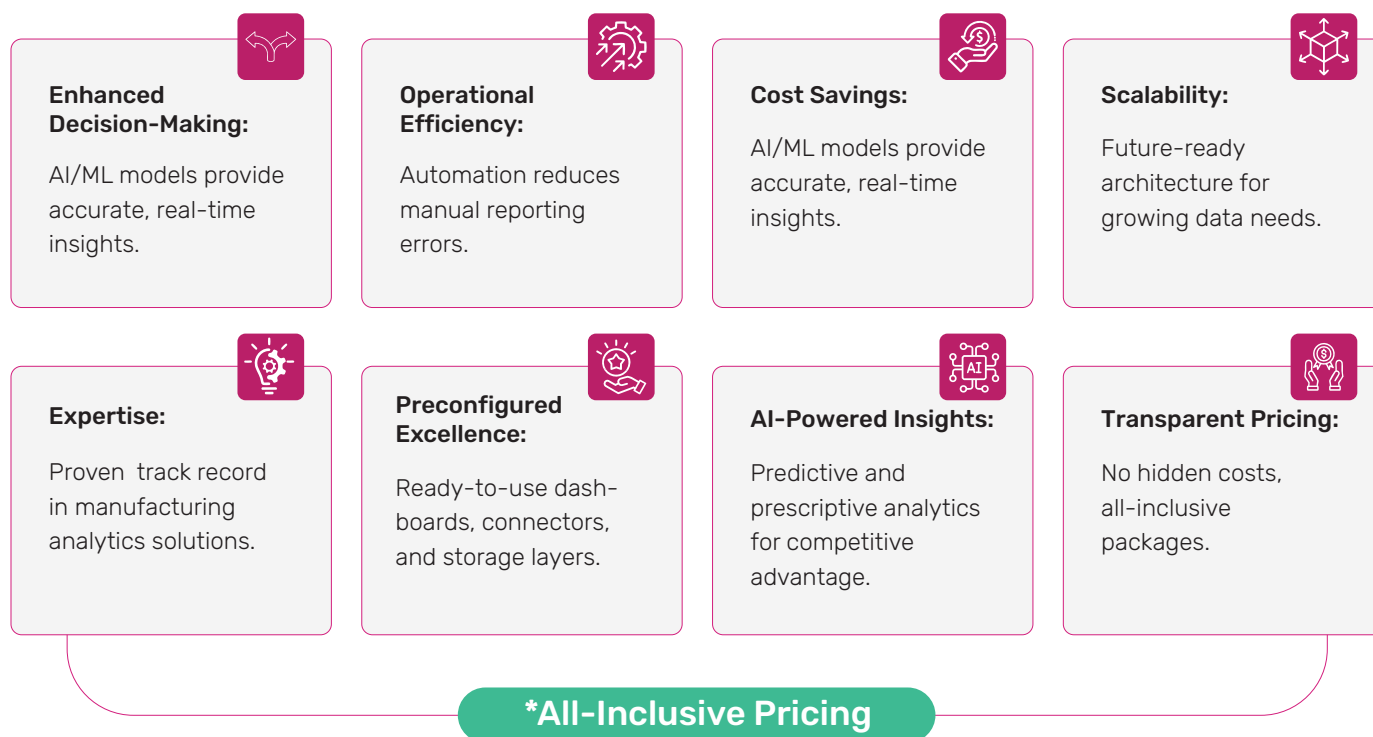

## Key Features of the Solution

- 100+ Pre-Built Dashboards**  
Ready-to-use reports for sales, inventory, production, and procurement, fully customizable.
- Pre-Configured Data Models**  
Scalable lakehouse architecture for structured, optimized, and AI-ready data.
- Seamless Third-Party Integration**  
Connects effortlessly across your data ecosystem.
- Secure, Scalable & Compliant**  
Enterprise-grade security, GDPR & HIPAA compliant.
- Near Real-Time Analytics**  
Seamless D365 integration with automated data updates and minimal setup.
- Copilot-Enabled Self-Service**  
AI-powered natural language reporting for quick, easy insights.
- AI and Predictive Insights**  
Forecast demand, detect anomalies, and optimize operations with AI-driven analytics.

## Why Choose MS Fabric AI for Manufacturing

### Value Delivered

- > Accelerated deployment with prebuilt dashboards.
- > Predictable pricing ensures no hidden costs.
- > Comprehensive support included

### Flexible, transparent pricing

- > Optimize cost management and pricing

### Single-Cost Model

- > Covers product, prebuilt reports, connectors, and cloud infrastructure.

### Add value with Flexible

- > Discounts for multi-year subscriptions (10% for 3 years).
- > Scalable pricing as your team grows—pay only for what you use.
- > Custom enterprise pricing available for complex implementations

## Real World Impact

### Real World Impact - 1

A leading machinery manufactures saves **25% cost with the all-inclusive model\*** compared to building custom solutions

**Solution:**

MS Fabric AI unified their data into a central platform, offering real-time dashboards.

**Problem:**

A machinery manufacturer faced challenges tracking inventory and production schedules across multiple factories.

**Result:**

Production delays reduced by 30%, and on-time deliveries increased by 25%.

### Real World Impact - 2

A medical device manufactures saves **45% by adopting this strategy**

**Solution:**

A medical device manufacturer struggled with supplier compliance tracking.

**Problem:**

The "Procurement Dashboard" provided real-time supplier performance metrics.

**Result:**

Procurement costs decreased by 15%, and supplier reliability improved

## Tailored Solutions for Every Manufacturing Need

Package	Features	Business Benefits
Operational Reporting	Pre-built dashboards, scheduled updates, single-source integration, role-based access.	Quick deployment, real-time visibility, cost-effective for small teams.
Analytics & Insights	Advanced dashboards, multi-source integration, AI forecasting, moderate customization.	Scalable, predictive insights, tailored for growth.
AI & Comprehensive Data	AI-driven analytics, near real-time updates, Gen AI Co-Pilot, extensive customization.	Enterprise-wide visibility, automation, future-ready architecture.

## Why Choose Korcomptenz as Your Microsoft Fabric & AI Partner?

Korcomptenz specializes in AI driven analytics and data solutions, helping businesses unlock insights and drive efficiency. As a Microsoft Partner for AI Cloud, MS Fabric, and a specialization in Azure Analytics, we leverage Generative AI, Agentic AI, Microsoft Fabric Copilots, and advanced visualization to deliver powerful data-driven solutions. Our expertise spans manufacturing, BFSI, retail, CPG, healthcare, and pharma with deep capabilities in finance, customer analytics, supply chain optimization, and ESG reporting. By integrating Microsoft Fabric, we enable seamless data unification, intelligent automation, and enhanced decision-making, empowering organizations to build scalable, AI-powered analytics strategies for sustainable growth.
