generation
platforms.

Ready to transform the way you work? Embrace the future of productivity with Microsoft Copilot, your intelligent AI assistant across all Microsoft applications. Whether it's optimizing tasks in Dynamics 365 or crafting impactful content in Microsoft 365, Copilot enhances efficiency, sparks creativity, and uncovers valuable insights from your data.

Copilot: Your AI-Powered Catalyst for Business Efficiency and Growth

Imagine having a smart assistant that streamlines tasks, sparks creativity, and uncovers key insights from your data. That's Microsoft Copilot—an innovative AI tool built into Dynamics 365 and Power Platform. No matter your industry or position, Copilot empowers you to:

Improve Decision-Making

Imagine having a smart assistant that streamlines tasks, sparks creativity, and uncovers key insights from your data. That's Microsoft Copilot—an innovative AI tool built into Dynamics 365 and Power Platform. No matter your industry or position, Copilot empowers you to:

Enhance operational efficiency: Simplify workflows, eliminate roadblocks, and optimize resource allocation. Boost productivity and profitability across your organization.

Unleash Innovation

Microsoft Copilot evolves quickly, helping you streamline workflows, boost creativity, and drive data-informed decisions. Leverage it more to stay ahead of innovation. The more you use it, the smarter and more personalized it becomes, keeping you ahead with new features. Empower your team by making AI accessible to everyone, unlocking potential and fostering innovation.

Enhance Creativity

Instantly generate engaging product descriptions, social media content, and ad copy. Let Copilot inspire your creativity and enhance your content strategy.

Build interactive websites, automate processes, and design data-driven visuals with ease. Push creative boundaries using intuitive AI support.

Accelerate Productivity

Reduce time spent on data entry, drafting emails, and generating reports. Let Copilot take care of the routine work, so your team can focus on high-value tasks.

Get quick suggestions for emails, presentations, and marketing content. Easily create customized communication with minimal effort.

Ask natural language questions or analyze complex datasets to quickly get the information you need.

Copilot Agents and AI Extensions to Jumpstart your Productivity

Copilot in M365

Empower your team with Copilot for Microsoft 365, designed to work seamlessly across the applications you use every day:

Word: Generate text and formatting effortlessly, allowing you to focus on content without starting from scratch.

Excel: Receive suggestions for formulas, chart types, and valuable insights into your data for efficient analysis.

Teams: Easily summarize chats, meetings, and calls to streamline collaboration and keep everyone on the same page.

PowerPoint: Create compelling presentations from prompts or Word files, and use the “Light Commanding” feature to quickly make deck-wide formatting changes or add slides and pictures.

Outlook: Summarize email threads and pull information from other emails or across Microsoft 365 to quickly understand key conversations.

Microsoft Sales Copilot

Supercharge your sales efficiency with Microsoft Sales Copilot. This AI-powered tool helps your sales team close deals faster by offering real-time suggestions, automating repetitive tasks, and providing actionable insights. Copilot analyzes customer data and interaction history to guide sales strategies, ensuring that reps engage with the right prospects at the right time. By streamlining workflows and reducing manual effort, Sales Copilot empowers your team to focus on building relationships and driving revenue, ultimately improving sales performance and productivity.

Microsoft Service Copilot

Enhance agent productivity with Microsoft Service Copilot. By providing agents with real-time information and automating routine tasks, Copilot empowers them to resolve customer issues faster and more efficiently. With its intelligent assistance, agents can focus on complex problems, while Copilot handles repetitive tasks, making them service heroes. This results in improved response times, higher customer satisfaction, and more effective use of resources.

Microsoft Security Copilot

Microsoft Security Copilot leverages advanced AI to analyze vast amounts of data, detect potential threats, and provide actionable insights for rapid response. By identifying risks in real time, Security Copilot helps security teams proactively protect your organization from emerging vulnerabilities. It also automates threat detection processes, enabling teams to focus on higher-priority tasks while ensuring swift and effective mitigation. With continuous learning, it adapts to new threats, improving over time to keep your security strategies sharp and efficient.

Microsoft Copilot Studio

Microsoft Copilot Studio allows you to tailor Copilot for Microsoft 365 or create entirely new AI assistants using your data, plugins, and integrations. Built on the Power Virtual Agents platform and integrated with Power Platform, Copilot Studio enables you to customize Copilots to meet your unique business needs. Whether it's enhancing knowledge discovery, streamlining task completion, or quickly responding to employee and customer inquiries, Copilot Studio helps you build intelligent solutions that drive efficiency and improve user experiences.

Microsoft Fabric Copilot for Data Science and Data Engineering

With Copilot for Data Science and Data Engineering, you can interact with an AI assistant that simplifies your data analysis and visualization tasks. Ask Copilot questions about lakehouse tables, Power BI datasets, or Pandas/Spark dataframes within notebooks, and it responds with natural language or code snippets. Copilot can also generate data-specific code based on your needs. The true value of Microsoft Fabric Copilot lies in its ability to seamlessly integrate with your workflow, offering personalized assistance tailored to your data and project context.

Why Choose Korcomptenz as your Microsoft Copilot Partner

Unlocking the full potential of Copilot can feel daunting, but Korcomptenz is here to help. As a Microsoft Dynamics Gold partner with over 20 years of expertise in Dynamics 365, Microsoft 365, Azure, and Power Platform, we'll guide you through every stage of your Copilot journey. From implementation to customization and ongoing support, our team ensures seamless integration and optimal performance. Explore our comprehensive service offerings designed to empower your business and enhance productivity with Microsoft Copilot.

Service Category	Service Offered	Description
Training and Onboarding	Copilot Orientation Workshops	Tailored training for specific roles (e.g., sales, marketing, finance) to leverage Copilot effectively.
